

Important COVID-19 Vaccination Requirement Information

As we approach the October 29th deadline for students to be fully vaccinated, it is important to note the following information:

- Students who have received their first dose of their COVID-19 vaccine by October 8th may request a temporary medical exemption to the fully vaccinated deadline. To request this accommodation, students must provide a record of their first dose and the date and time for their second dose to carla.salsman@keystone.edu by October 20th.
- Students may also choose to receive the J&J vaccine by October 15th and be considered fully compliant by the October 29th deadline.

Lastly, students are reminded to provide a picture of the front and back of their vaccination card to carla.salsman@keystone.edu as soon as they have gotten their second dose of a two-shot vaccine or after they have gotten their J&J vaccine. This will help to ensure that everyone's vaccination status is documented and there will be no disruptions to any academic, housing, athletic, or campus life activities.
