

## **Off Campus Internship Vaccination Policy**

All students enrolled in Keystone College courses which have an in-person component are required to be fully-vaccinated to continue attending in-person classes on campus, effective November 1, 2021. Unvaccinated students who are enrolled in off campus courses are permitted to continue those educational experiences in-person provided they comply with the policies and regulations of the location at which they are completing their experience. This applies to any student engaged in student teaching, field observation, experiential learning and/or internships. This does not in any way alter the current Keystone College policy requiring full vaccination for participation in in-person courses on Keystone College's campus.
